

"With Jesus as our guide; we live, love and learn together."

In partnership with home and parish, Holy Name Catholic Primary School seeks to provide an education that promotes a full understanding of the Catholic faith and a high-quality education to meet the needs of all our pupils.

Introduction:

Homework refers to a task given to pupils by the class teacher which should be completed outside of usual lessons. Homework is part of the wider partnership between home and school reinforcing the key skills that will enable pupils to access the broad curriculum.

Aims and Objectives:

The aims and objectives of our homework policy are:

- to ensure a consistent approach to the use of homework across the school
- to inform parents and carers about our approach to homework and to promote partnership and co-operation between home and school in supporting each child's learning
- to promote basic skills in spelling, punctuation and grammar in English and number facts and calculations methods in mathematics
- to help pupils develop the skills of independent learners
- to help children develop good work habits for the future

The Role of Parents and Carers:

Parents and carers have a vital role to play in their child's education, and homework is an important part of this process. We ask parents and carers to check what homework has been set and invite them to help their children as and when they feel it to be necessary and to provide them with the sort of environment that allows children to do their best. Parents and carers can support their child by providing a good working space at home, by enabling their child to visit the library regularly, and by discussing the work that their child is doing.

If parents and carers have any questions about homework, they should, in the first instance, contact the child's class teacher. If any queries need to be taken further, they should not hesitate to contact the deputy headteacher or headteacher.

Monitoring and Review:

Homework is regularly reviewed by the school's senior leadership team. It is the responsibility of our governing body to agree and then monitor the school homework policy. This is done by the committee of the governing body that deals with curriculum issues. Parents and carers complete a questionnaire each year, which seeks parents' views on homework. The governing body pays careful consideration to any concern that is raised by any parent.

This policy will be reviewed every three years or more often if necessary.

Types of Homework:

We believe that homework should develop pupils' basic skills. Each year group will have, daily reading, spelling practice, number facts and a maths consolidation task.

Pupils will also be set a project task to complete during the spring and autumn term in order to develop a range of skills.

The class teacher will inform parents of the day that homework is set and due in on the 'useful information' document on the website
