

PE and sport premium

Guidance and monitoring tool for governing boards

The [PE and sport premium](#) is funding allocated to primary schools that must be used to:

- make **additional and sustainable improvements** to the existing PE, sport and physical activity offer available in the school
- **build capacity and capability** in the school and make sure that improvements made to the quality of PE, sport and physical activity provision now are sustainable and will benefit pupils joining the school in future

Governing boards are responsible for monitoring PE and sport premium spending.

Governors and trustees can use the following tool to:

- ensure appropriate use of the funding (in line with [conditions of grant](#) and any other relevant financial rules and procedures)
- ensure that spending represents good value for money
- evaluate the impact of spending on pupil outcomes

Reporting requirements

All schools who receive PE and sport premium funding must publish a report on their website detailing how the funding has been spent and the impact of spending, in line with requirements set out in [DfE guidance](#). The report must be published by **31 July** each year.

While school leaders draft the report, governing boards should review and hold leaders accountable for how schools plan for and use PE and sport premium funding and the outcomes achieved in the previous academic year.

All schools who receive PE and sport premium funding must complete a [PE and sport premium digital expenditure reporting return](#). These forms, once submitted, can be downloaded and published to fulfil the above reporting requirement. Governing boards should review, scrutinise and confirm funding has been used appropriately ahead of submission and publication by the above deadline.

A PE funding evaluation form is available from [Youth Sport Trust](#) and [The Association for Physical Education](#) to help schools prepare to complete the expenditure reporting return.
